

News from Mrs. Siedjak

Math

Next week we will be starting a new math unit which focuses on multiplication and division. We will work on solving multistep word problems using the four operations, identifying factors and multiples of whole numbers, and also generating and analyzing number and shape patterns. So, be on the look out for homework practice in those areas. Also, don't forget to use the math apps. on the Stocker Bookmark page for additional math practice at home.

Conferences

Conferences will begin next Wednesday, October 25th and go through Friday, October 27th. I will be sending home a reminder slip with your day and time. It will be great to sit and talk with everyone!

Goodies - Incentives

If you would like to donate some goodies to our classroom that would be greatly appreciated. The kids work for small incentives like a piece of candy or a cookie. Any treat brings a smile to a child's face!

Old World Wisconsin

We had a wonderful time at Old World Wisconsin! Not only was the weather delightful, but the kids were so excited and learned so much! Thank you to Mrs. Davis, Mr. Eldridge and Mrs. Pupovac for chaperoning. Ask your child about life in Wisconsin during the 1800's! They should have some good stories to tell you!
